FACILITY CONSTRUCTION

NATIONWIDE CANNABIS FACILITY
DESIGN-BUILD FOR DISPENSARIES,
PROCESSING & CULTIVATION

Consult, Construct, Transform

Consult, Construct, Transform

Need full-service design-build
for the licensing process?

Already have a design and looking
for a construction partner?

We're ready to make your
property inspection ready.

Cannabis Facility Construction is one of the industry's most experienced national full-service design-build cannabis construction firms.

As one of the first to serve the medical cannabis industry, we've been delivering high-quality cultivation centers, processing laboratories and retail dispensaries nationally since 2015.

Cultivation Centers

Retail Dispensaries

NATIONAL EXPERTISE

FACILITY DESIGN-BUILD
SECURITY PLANNING
CONSTRUCTION MANAGEMENT
PERMITTING & COMPLIANCE

Experience in Arizona, Illinois, Maryland, Massachusetts, Michigan, Missouri, New Jersey, North Dakota, Ohio, Pennsylvania, Virginia, and West Virginia.

We build for quality, flexibility and compliance anywhere we are needed, for everyone from craft growers to multi-state operators (MSOs). We know the right questions to ask and pitfalls to avoid for all types of cannabis facilities: cultivation centers, processing facilities and retail dispensaries.

OUR DESIGN-BUILD PROCESS

We help you realize your vision by converting ideas and designs into functional, sustainable and aesthetically pleasing environments. We treat each project as if it were our own with our four-step design-build process:

1. DESIGN - BUILD CONSULTATION

Site-assessments; scope confirmation;
pre-construction planning

2. DESIGN

Team designs your space for your
specific needs

3. CONSTRUCT

High-quality, client-conscious,
compliant job sites

4. TRANSFORM

Realize your vision for your
space, your goals

Establishing our design-build footprint across the country since 2015

OVER 40 PROJECTS BUILT AND IN PROCESS
PROJECTS ACROSS 12 STATES
AVAILABLE TO WORK IN ANY LEGALIZED STATE

EXPERIENCE

Members of the National Cannabis Industry Association, our clients include four multi state operators as well as independent cannabis companies ranging from small – to large-scale operations.

Over 30 years of commercial construction experience informs our work on dispensaries, processing labs and cultivation centers.

CLIENT PROMISE

In the industry since 2015, we understand the unique challenges facing business owners and investors in the cannabis economy. Customer relationships are the number-one priority for our teams and our principals, Andy Poticha, Ira Singer and Mike Frazin.

“ Partnering with CFC, we have been thoughtful about connecting the design-build process with our customer experience and compliance objectives. Together, we identified and solved potential issues early in the design-build process, so that the build-out is supportive of sales, security, and being good neighbors in our communities.

— Mitch Kahn, Co-Founder of Greenhouse Cannabis

AN ELEVATED EXPERIENCE

As an affiliated brand of Mosaic Construction, our team shares values and ethics that shape an elevated experience for our clients and teams. It's how "It All Comes Together."
